

AERO COMPACT LIFERAFT

The Aero Compact is an ideal liferaft solution for when traditional rafts cannot be used due to limited space. This includes small yacht, powerboat, private fishing, RIB, light aviation and paddle markets.

With double 90.7kg SuperRev™ ballast pockets, the Aero Compact enhances stability in the roughest of sea conditions. Its light weight allows for easy deployment, and the compact size makes stowage easy even in the smallest of spaces.

Key features

- Bridges the gap between the lifejacket and the full feature liferaft
- Double 90.7kg weighted SuperRev™ ballast pockets for stability
- Raft inflates automatically in less than 30 seconds with self-contained CO2 inflation system
- Single tube, single compartment construction
- Tube and floor fabric: polyurethane coated nylon fabric
- RF welded and adhesive bonded tape seams
- Valise: Durable weather and UV resistant vinyl-coated polyester with optional, detachable equipment pack/kit
- Pressure relief valve
- Required initial service 2 years after purchase; Annual service intervals thereafter
- Launch type: Throw-over
- 1 year service interval
